

AMSC to Present at Jefferies 8th Global Clean Technology Conference

Presentation to be Webcast Live on September 30, 2009

DEVENS, Mass., Sep 17, 2009 (BUSINESS WIRE) -- American Superconductor Corporation (NASDAQ: AMSC), a global energy technologies company, announced today that the company will be presenting at Jefferies 8th Global Clean Technology Conference in London on Wednesday, September 30, 2009 at 9:30 a.m. local time (4:30 a.m. ET).

Founder and Chief Executive Officer Greg Yurek will discuss AMSC's growth drivers and business strategy at the conference. Those interested in listening to the live or archived broadcast via the Internet should log on to the "Investors" section of AMSC's website, www.amsc.com/investors.

[About American Superconductor \(NASDAQ: AMSC\)](#)

AMSC offers an array of proprietary technologies and solutions spanning the electric power infrastructure - from generation to delivery to end use. The company is a leader in [alternative energy](#), providing proven, megawatt-scale wind turbine designs and electrical control systems. The company also offers a host of [Smart Grid](#) technologies for power grid operators that enhance the reliability, efficiency and capacity of the grid, and seamlessly integrate renewable energy sources into the power infrastructure. These include superconductor power cable systems, grid-level surge protectors and power electronics-based voltage stabilization systems. AMSC's technologies are protected by a broad and deep intellectual property portfolio consisting of hundreds of patents and licenses worldwide. More information is available at www.amsc.com.
